The Genius Workshop started teaching Interactive and engaging S.T.E.M programs in Canada in 2004. We believe that education is most efficient and effective when children enjoy and fully engage into the learning process. We actively renew our curriculum and seek for fun and stimulating ways to teach our students the everchanging S.T.E.M concepts.

## Engineering Workshop

In this workshop, children will acquire and apply a large variety of engineering concepts in their LEGO creations. Utilising the abundant resources available at our workshop, they will be able to build and modify inspiring projects that serve creative and meaningful purposes. Don't underestimate the potential in children; sometimes even our instructors are fascinated by children's creations!
